PART 1. -- GENERAL

101. CHANGE 1 TO DMA OTAG REGULATION 351-4.

1. Reference is made to Change 1 to DMA OTAG Reg 351-4 dtd 24 Mar 77.
2. Regulation Number in upper right hand corner should read 351-4.

102. STATION LIST.--Shelby's telephone number on the Station List is incorrect. The number now reads 434-2672; it should read 434-9991.

PART 2. -- PERSONNEL

201. EVALUATION REPORTS EER (DA FORM 2166-5) AND SEER (DA FORM 2166-5A).--All units affected by the reorganization are reminded that DA Form 2166-5 Enlisted Evaluation Report (EER) for personnel in pay grade E5 and DA Form 2166-5A, Senior Enlisted Evaluation Report (SEER) for personnel in pay grade E6 and above for period ending 28 Feb 77, are to be submitted no later than 21 May 77. (Example, change of rater, transfer from one unit to another.)

Reference is made to para 3 Interim Change to AR 135-205 dtd 5 Nov 76 and para 2-9 AR 135-205.

202. HOUSING OF WOMEN SOLDIERS IN THE FIELD.

1. Several reports have been received by DA indicating that some units are assigning joint sleeping facilities to male and female soldiers during field exercises. This procedure appears to violate principles of insuring privacy and security for men and women occupying permanent or temporary housing.
2. Request your billeting procedures under field conditions be reviewed to insure that they are in accordance with the direction and intent of AR 210-6.

203. OER - ACTUAL MEAN SCORES.--Ref: ALARACT Msg 061045Z May 75. It appears that raters and indorsers are not being made aware of the actual mean scores quoted in para 3 of said message. Those scores are:

COL	195	CW4	195
LTC	193	CW3	194
MAJ	193	CW2	189
CPT	191	WO1	186
1LT	185		
2LT	182		

To give anything less than those scores above is to do an injustice to the individual unless a lower score is justified due to poor performance.

204. REMINDER - COMPLETED OER's!!--States are falling down on getting completed OER into the NGB not later than 60 calendar days after the "thru" date of the report. Numerous officer files have been checked and found to be lacking two (2) OER or more. Suggest reading AR 623-105, Chapter 10, dated 11 June 1976. It is the responsibility of each officer to see that an OER is written when due and that the individual receives his/her copy.

205. ARNG OFFICER FOR ADT TOUR. ADT Tour available. See Attachment 1.

206. TECHNICIAN VACANCIES.--The following technician vacancies are announced in the Montana Army National Guard. Refer to Technician Vacancy Announcements posted on unit bulletin boards for details.

### PART 3. -- OPERATIONS AND TRAINING

301. STATE OCS.--Maximum age for entrance into the program is 30 years waivable in exceptional cases to 32 1/2 years. This applies to the 77-78 school year only. After this school year, the age will be lowered to 28 waivable to 30 starting with the school year 78-79. Request for waivers are to be sent to NGB-ARP-0.

### 302. WEIGHT STANDARDS FOR SERVICE SCHOOL TRAINING.

1. Reference: AR 600-9.

2. It is essential to the readiness and combat effectiveness of the Army National Guard (ARNG) that every officer/enlisted member be physically fit regardless of age or duty assignment. Closely related to physical fitness are weight control and military appearance. Corrective measures at all levels of command and staff will be taken when officer/enlisted personnel do not maintain acceptable weight and military appearance standards.

3. On numerous occasions ARNG officers/enlisted personnel reporting for courses of instruction at Army service schools, have been found to exceed the weight standards contained in AR 600-9. Their condition has been a source of embarrassment not only to the individual but the Army National Guard as well.

4. In an effort to encourage the monitoring of weight standards, effective immediately all applications for school training (NGB Form 64) submitted to ARNG school branch in the future will include in the "additional remarks" section the statement "individual meets the weight standards of AR 600-9" followed by an entry indicating the individuals height in inches and weight in pounds. Failure to include this information will delay processing of the individuals service school application.

5. Request this information be disseminated to all echelons of your command.

Also, Article 19, para 3 of the Labor Management Agreement requires that the employer furnish safety glasses at no cost to the technician.

- a. All ARNG armories, shops and facilities are in the process of receiving their OSHA surveys. The OSHA surveys will be completed by 31 Aug

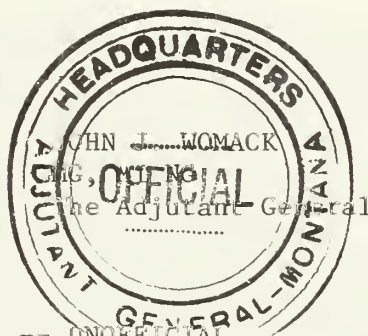

77. If your facility has not been surveyed yet, you can expect to be notified in the near future as to when to expect your survey.

b. After the OHSA survey is completed and referenced, the facility supervisor will receive a list of the hazards found. Hazards that can be corrected at the local level by personnel and funds available will be done so. Hazards that cannot be corrected at the local level should be reported to the Facilities Officer, OTAG, on a AGO Form 43 Work Request.
